Departments of Education and Agriculture,
Bangalore.

SIR,

With reference to your letter No.3561/Edn.12-14-179 dated 26th March 1915 calling for certain information regarding thr prices of certain models, books, etc., required for the Chamarajendra Technical Institute, Mysore, I have the honour to inform you that the prices noted in the lists of models and books recommended are those taken from the catalogues of well-known firms in England and that the order for the supply of these articles will be placed as usual with Messrs. Baker and Co., London, who will produce the bills of the publishers and charge only a small percentage on the amount of the bills as ~~their~~ their commission. I am inclined to think that on account of the present crisis in Europe, there will be hardly any response to the call for tenders from England. Besides to call for tenders from foreign countries for a variety of articles manufactured by different firms may entail much profitless expenditure and for some time to come, the practice of entrusting the work to Messrs. Baker & Co., on a small commission, which has worked satisfactorily for the past several years may be allowed to continue. As regards the articles of furniture required, they will be manufactured in the Institute Workshop and hence no tenders were called for.

I have the honour to be,
Sir,
Your most obedient servant,
M. Shama Rao
